

YOU'RE INVITED TO PARTICIPATE IN THE

IEEE PES Young Professionals "Milestelfies" Photo Contest

MERGING HISTORY WITH THE LIFE OF A YOUNG PROFESSIONAL

Around the globe, the power and energy industry has dedicated historical sites that hold special meaning to many professionals. You can find a list of **177** IEEE historical sites around the world by visiting http://ethw.org/Milestones:List_of_Milestones. As part of the contest, IEEE members are challenged to visit as many of these "milestone" historical sites as possible and take a selfie with the site. We're calling it the "**Milestelfies**" photo contest!

Once you get the selfie, you'll need to then share it via Twitter and a line about the milestone itself. Be sure to use hashtag **#Milestelfie** in the tweet and tag **@IEEEPESYP**. Simple! The contest starts on May 1, 2017 and ends September 15, 2017. For the individual who gets the most "Milestelfies," the grand prize will be an Apple Watch Series 2 followed by IEEE PES merchandise runner-up prizes.
